Cover grating (page 2.60)
18120H = Chroma Pool-tile (page 2.06)

2.34 Pool Edge Systems

Ecological, economical: the pool edge system Bamberg

Developed for Europe's first indoor swimming pool satisfying the passive house requirements, the Bamberg Channel reduces the water evaporation in the area of the overflow channel by 45 per cent compared to conventional systems. Scientific analyses prove the advantages of the innovative system:

- noticeably lower water consumption
- considerable decrease of the energy requirement
- less frequent ventilation due to reduced water evaporation in the pool edge area
- reduced noise level
- elegant look without cover gratings
- suitable for many types of swimming pools

AGROB BUCHTAL – Bamberg Channel*

Scientific methods and state-of-the-art laboratory techniques (left) of the "Institut für Energie und Gebäude (IEG)" at the "Georg-Simon-Ohm-Hochschule Nürnberg" proved it: the new Bamberg Channel of AGROB BUCHTAL, which was developed in close co-operation with pbr Planungsbüro Rohling AG and "Stadtwerke Bamberg Bäder GmbH", decisively contributes to the energy efficiency of swimming pools. While the splash water increases the evaporation rate in the case of conventional systems (middle), the Bamberg Channel effects a considerable reduction (right) thanks to its sophisticated design – and thus makes an important contribution to energy saving: heat losses are reduced and the ventilation systems must circulate less air, i.e. they consume far less energy.

*patented

2.36 The Advantages of Swimming Pool Ceramics by AGROB BUCHTAL at a Glance

- **Curved internal corner for the system Finland with the following advantages:**
 - Design variant with rounded corner special piece and rounded cover grating
 - Optimized water flow thanks to the reduction of dead zones in the corners
 - No corner or mitre joint
 - Easier cleaning of the corner areas
- **An almost unlimited range of colors** allows the realization of comprehensive, individual design concepts
- **Numerous pool edge systems** for all types of swimming pools
- **Various special pieces and special solutions** for adjoining areas such as e.g. benches, stairs, standing steps, ladder recesses, letter tiles, shower tub systems
- **Solid pool edge systems and special pieces**, i.e. without cavities
- **Perfectly matched accessories** such as e.g. cover gratings, silent outlet valves and the like
- **Durable integration** of pool lanes, safety and water polo field markings, letter tiles etc.
- **Greatest possible freedom with regard to the pool shape** (without restriction to prefabricated standard parts or expensive special productions)
- **Diverse slip-resistant floor solutions** for children's, paddling and non-swimmer pools, showers, pool surrounds, dressing rooms etc.
- **Absolutely hygienic**
- **Ecologically harmless**
- **Non-decaying and corrosion-proof** (ferruginous waters ...)
- **Resistant to aggressive water** treated with chlorine, salt, ozone, thermal and mineral water
- **Resistant to cleaning agents and disinfectants**
- **Light-fast** also in case of exposure to extreme solar radiation
- **Long-lived**
- **Low cost**
- **Slip-resistant solutions up to the pool edge**
- **Channel pieces producing less noise** than those of other manufacturers

Channel piece Wiesbaden – mosaic recess

Made in
Germany

Solid solution from AGROB BUCHTAL

Channel piece with cavities:
The result is risks with regard to hygiene,
stability and frost resistance (not produced
by AGROB BUCHTAL)

With the Swimming Pool Special Programme of AGROB BUCHTAL, pools suitable for competitions and Olympic Games can be built in compliance with the FINA regulations without any problems.

2.38 Ceramic Channel Cover 2.0

R11/B

With the ceramic channel cover, the system "Wiesbaden Style" offers the possibility for the first time to design the whole pool surround inclusive of the pool edge in a homogeneous look and to benefit from the technical advantages of the system Wiesbaden at the same time. This can be realized with the colors and special surfaces

of the series Capestone, Quarzit, Valley and Emotion. The supports and base plates are also available in matching colors. Thanks to plug-in connections, the cover can be easily laid. The ceramic channel cover is slip-resistant and very robust.

Cover tile 8 mm
(Capestone, Quarzit)

Wiesbaden Silent

conventional channel

The special version "low-noise channel" Wiesbaden Silent is a development for considerably reducing the noise level. Compared to a conventional Wiesbaden channel, it is reduced by approx. 10 dBA at a water quantity of 6 m³/h per 1 m of channel. This solution is based on a complex combination of channel shape, arrangement of cover gratings and specially designed supporting strip for the gratings.

Swimming Pool Accessories – Cover gratings

Especially developed high-impact plastics, connection of the individual slats with stainless steel (V4A) tie rods (transverse grating).

At least **75 kp per rod at central spot load**, therefore impossible to break individual rods.

Advantages:

- High-impact plastics (without PVC)
- Solid grating rods
- Slip-resistant due to profiled surface (valuation group "C")
- Odourless
- Heat-resistant
- Attractive shape
- Excellent resistance to ageing
- No clattering underfoot due to plug-in system and tie rod
- **1 m length of rods** enables easy lifting ensuring good cleaning properties
- Simple construction
- Rapid installation

2.60 Swimming Pool Accessories – Cover Gratings

Colors:

- Light-grey, similar to RAL 7032
- White, similar to RAL 9016

Both colors have the same price!

Special colors:

- RAL colors and other colors on request.
- Minimum purchase quantity of 20 lin. m.

Supplementary delivery programme:

- Special corner pieces (mitred joints) and curved gratings available.
- Transverse gratings inclined on one side for Wiesbaden Large Channel (entrance area/stairs) available.
