

LOXON XP[®]

MASONRY COATING

WATERPROOFING PROTECTION IN ONE LESS COAT.

Kinwick Materials Limited - Wilson Fung 92303714 Email: wilsonfung168@hotmail.com

ULTIMATE PROTECTION FOR MASONRY.

Loxon XP® provides exceptional protection against wind-driven rain, alkali and efflorescence. This direct-to-concrete and masonry high-build coating offers maximum performance in one less coat compared to conventional coatings

and there is no need for priming. The jobs go fast and the great look lasts a long time. Protect concrete from damp conditions and weathering, plus meet the most stringent VOC regulations.

LOXON XP KEY BENEFITS

• Exceptional flexibility, durability and fade resistance.	• Meets the most stringent VOC regulations.
• Protects against wind-driven rain, alkali, cracking and efflorescence.	• Low temperature application down to 35°F.
• High build for one less coat compared to conventional masonry coatings.	• Suitable for all types of vertical concrete and masonry surfaces including tilt-up, precast, poured-in-place, CMU, cement block and stucco. Available in a wide range of colors.
• Save time and turn job fast — applies directly to bare concrete with a pH as high as 13. Can be applied to fresh concrete and masonry less than 28 days old. No primer needed.	• For best results this product should be applied at a minimum of 14–18 mils wft (wet film thickness) and 6.4–8.3 dft (dry film thickness).
• Delivers excellent directional rolling and sheen for a uniform finish.	

LOXON XP IS BROUGHT TO YOU BY A NAME YOU KNOW AND TRUST.
